ID: door100

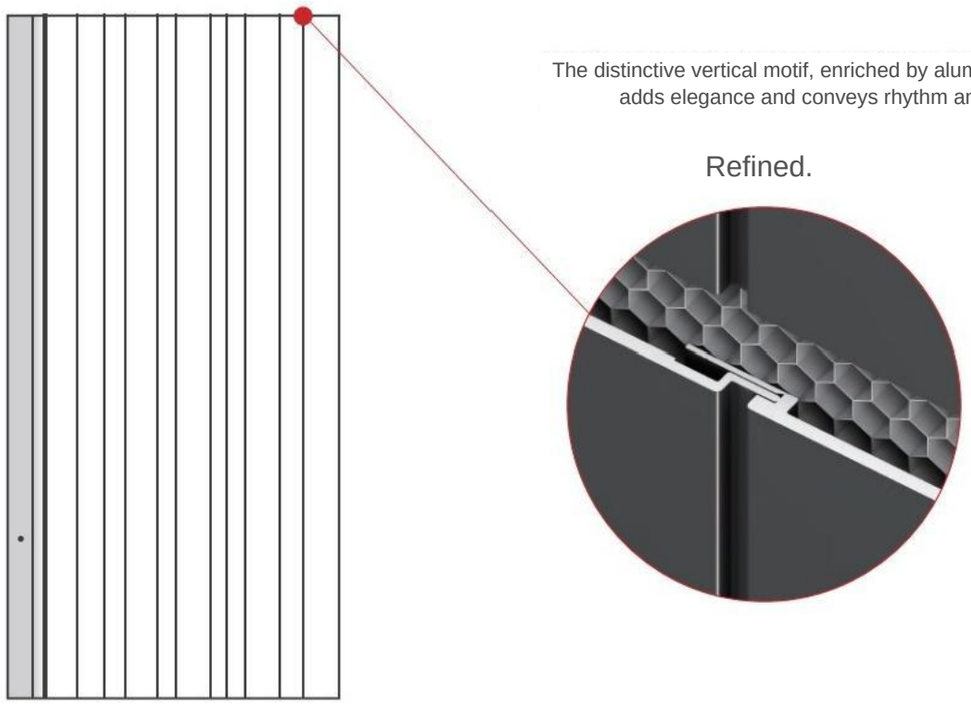

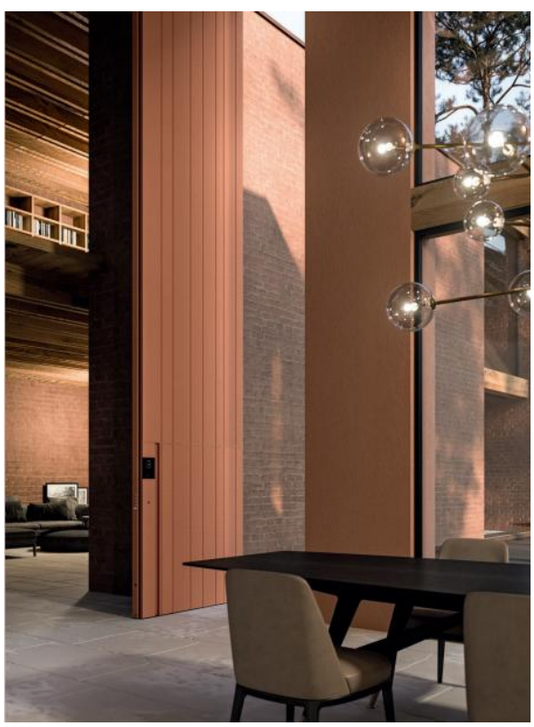

The distinctive vertical motif, enriched by aluminium profiles set between the slats, adds elegance and conveys rhythm and beauty to the whole space.

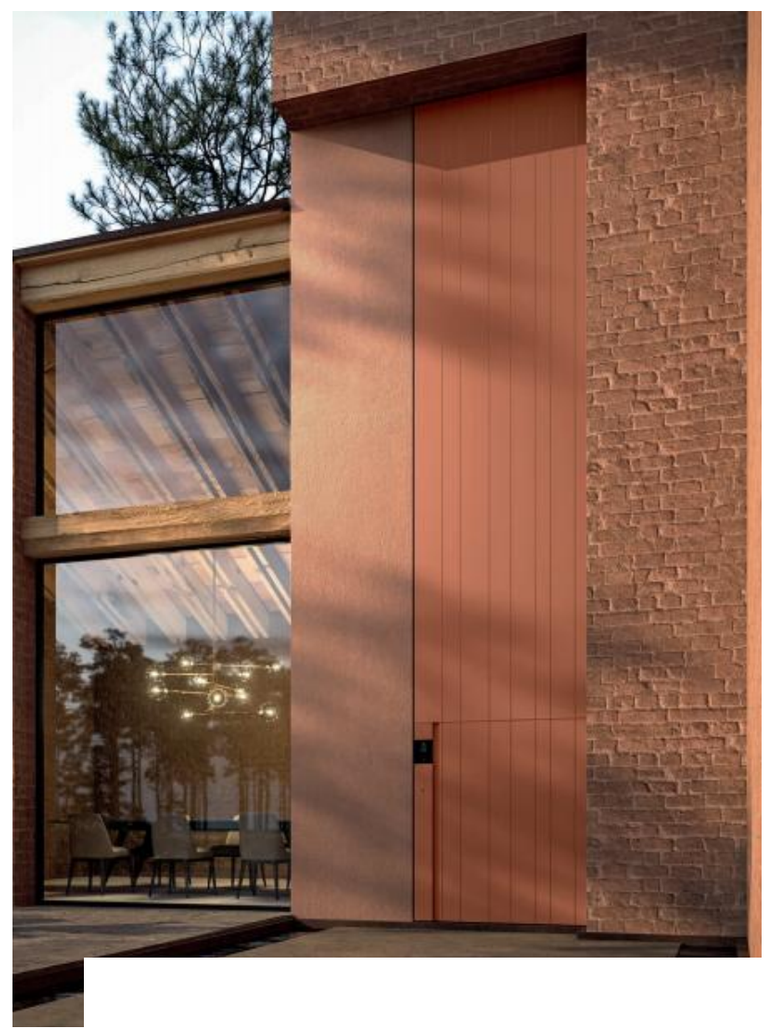

Refined.

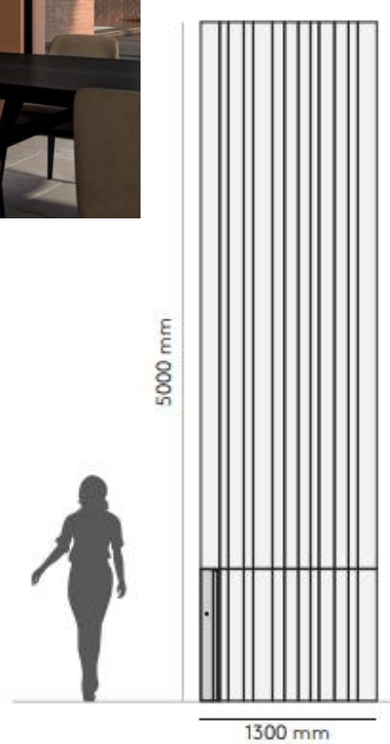

It is an aluminium groove. If highlighted in a different colour, it becomes a decorative element that matches or contrasts with the surface.

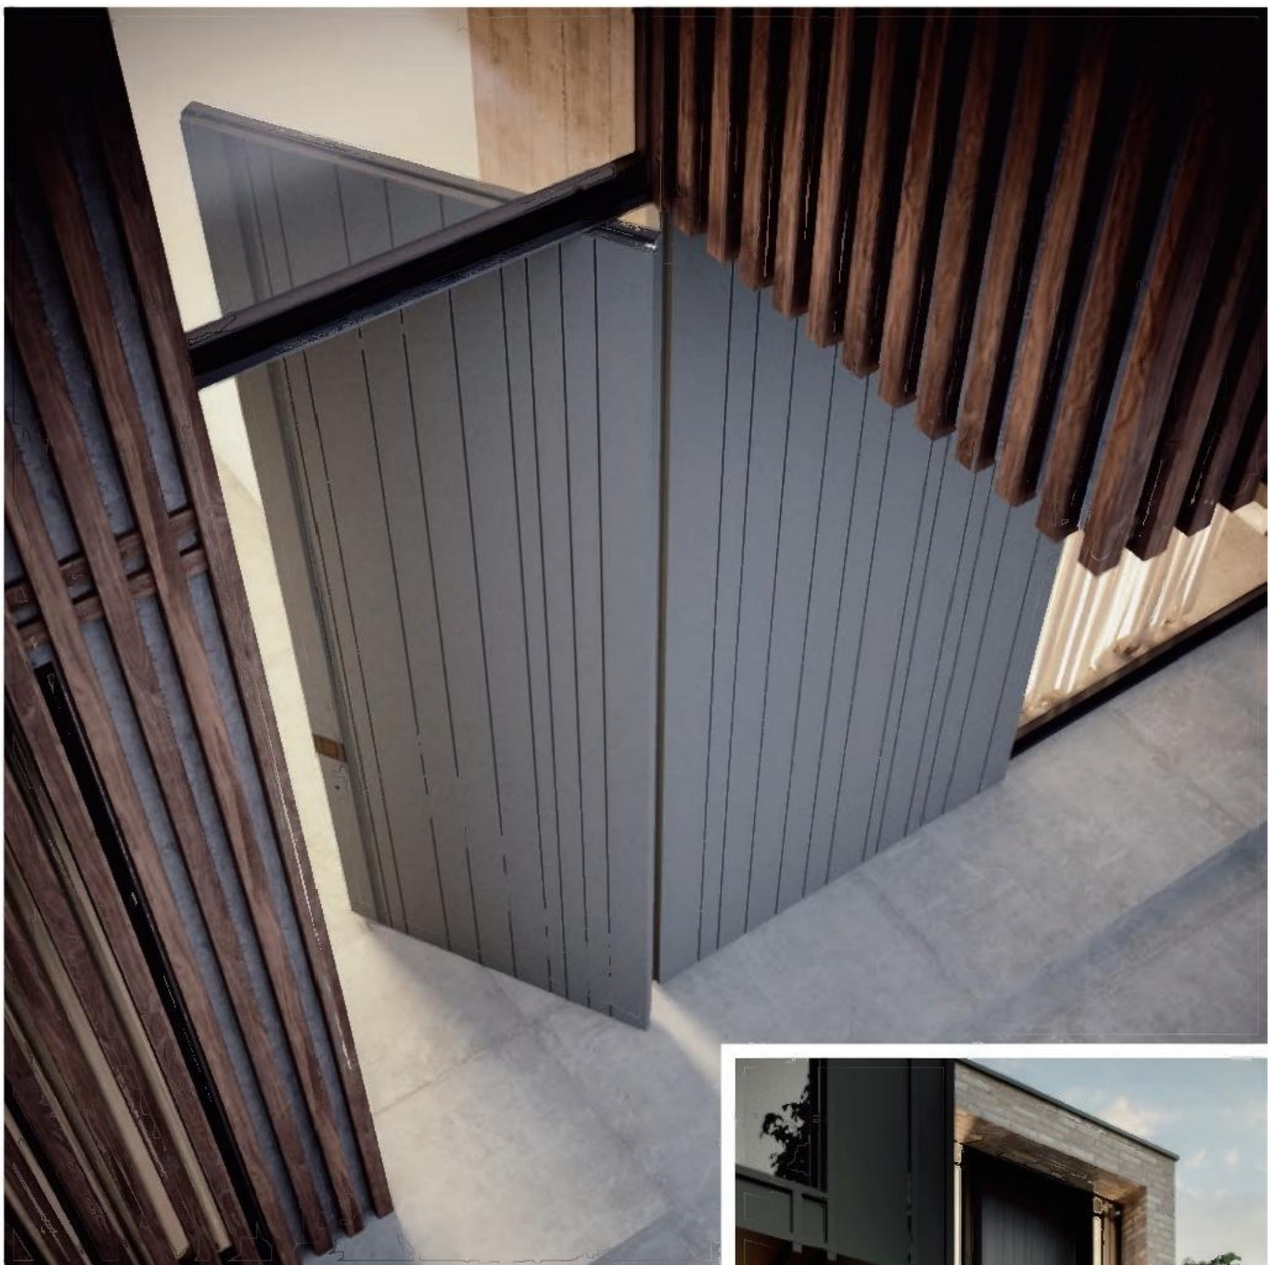

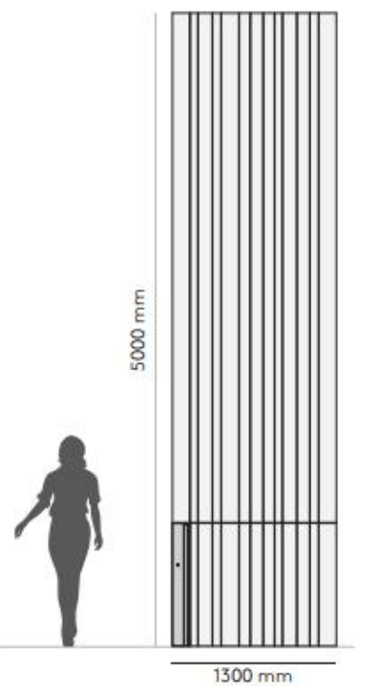

5000 mm
1300 mm

Subverts the rules, playing with lines, signs and heights. In a single vertical composition it dresses an entrance with elegance and lets it reach the sky.

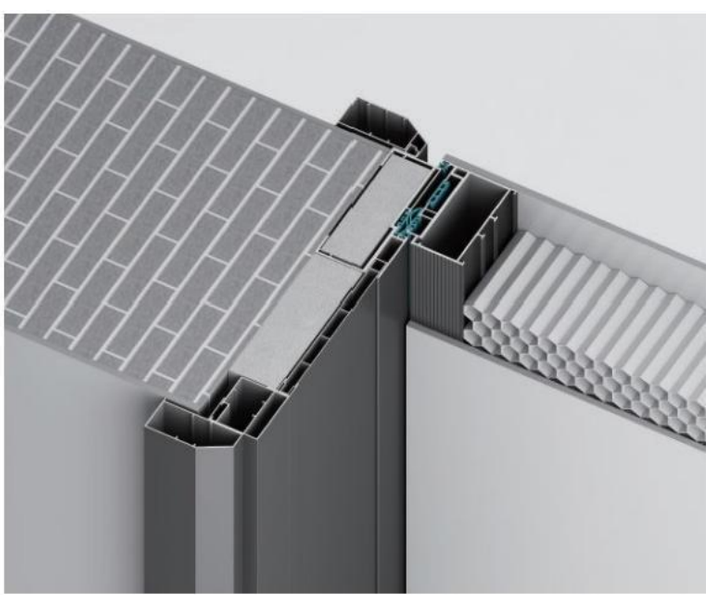

5000 mm
1300 mm

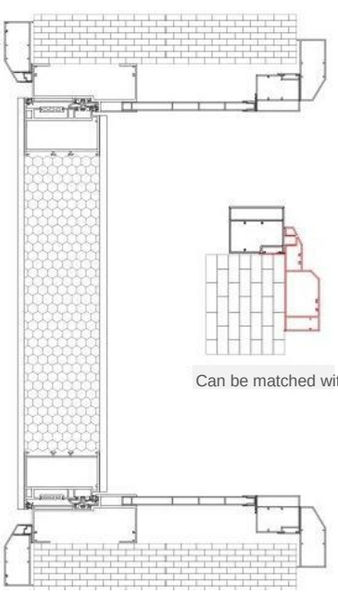

High insulation - high acoustics - corrosion resistant

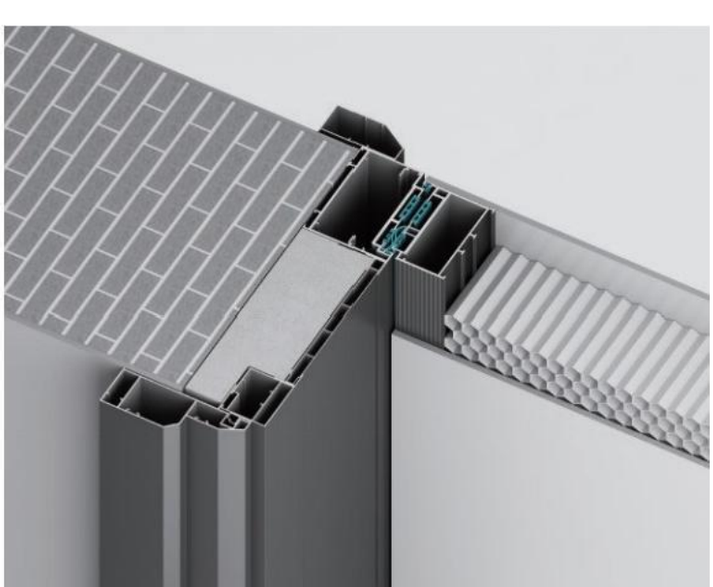

Eco-friendly

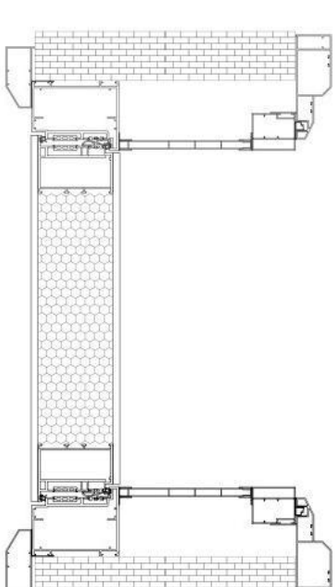

Can be matched with 7cm door casing

Double Packaging Type A

Double Packaging Type B

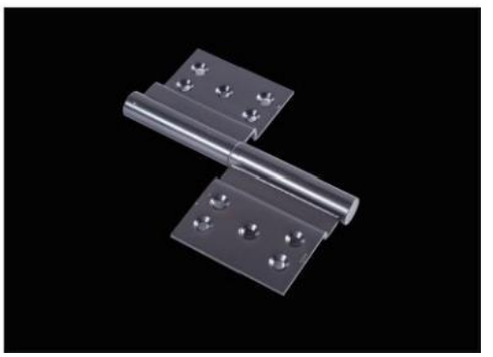

Four hinge types fit all series (Oulang hinges)

When you choose us, you choose to be different. To see the world, it's that simple - push it open... what you want is right in front of you.

Japanese & Domestic Off-Axis Fittings

UNIVERSAL
CORNER CODE

Universal
Corner Bracket

The precisely engineered right angle of the corner bracket ensures 90° alignment of the frames, reduces installation error, prevents distortion, effectively distributes loads, improves wind and impact resistance and extends service life.

Universal Door Leaf Reinforcement

MULTIPLE COMBINATIONS

Excellent products come from the combination of countless details. Understanding people and their intentions is our first step towards perfection.

Inward-Outward Flush Series / Cement Frame Series

Off-Axis Door Series

One Door, One Scene Series

System leaf profiles, universally compatible, flexible to combine, easy to assemble

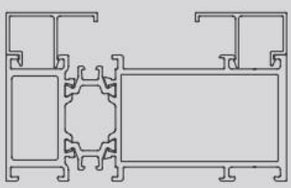

An excellent product requires not only a scientific attitude but also human warmth.

E CENTRAL COLUMN

Frame Centre
Column

Fits All Series

Standard 5mm+22A+5mm insulating glass for product variety.
Standard configuration: 5mm+22A+5mm insulating glass, diversifying the product range.

CENTRAL COLUMN

Fits All Series

Adding a centre column to the door leaf enhances structural stability, reduces warping and sagging caused by long-term use or temperature and humidity changes; the column distributes the loads and extends the service life of the leaf.

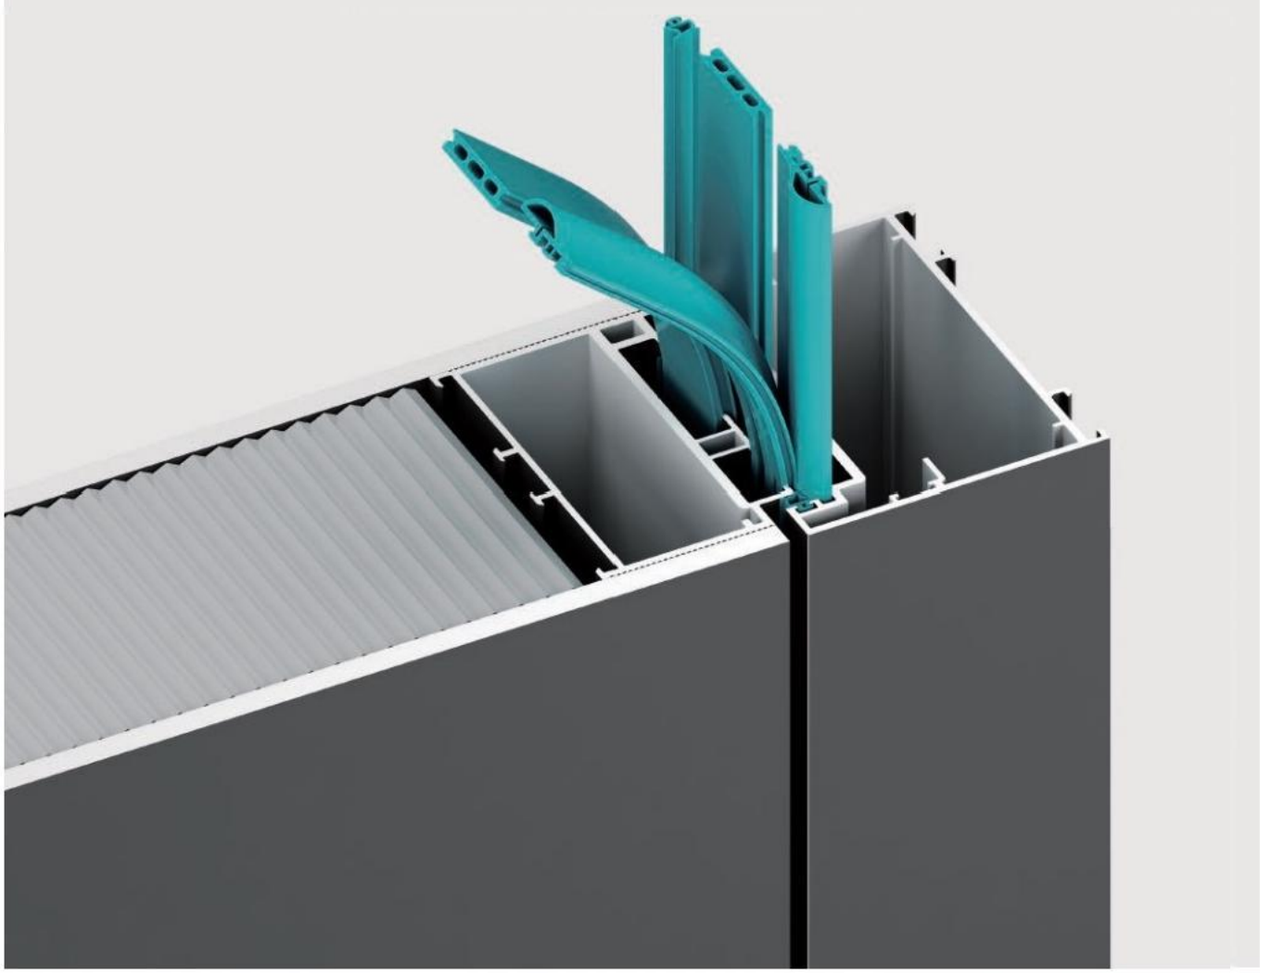

RUBBER STRIP

Automotive-Grade Weather Strip

Fits All Series

The flexible material effectively absorbs vibration and noise, improving the sealing comfort of doors and windows.

Cover Plate

Meeting Weather Strip

Small Weather Strip
